Rotary International is considering a project to address membership, public image, communication, leadership, and fundraising challenges to help define a more sustainable future for Rotary.

A local Regionalisation team made up of Rotarians from our zone has identified five key project objectives: - Support clubs to engage members, volunteers, and communities - Create new attractive leadership roles and development opportunities - Build a stronger unified Rotary brand - Encourage partnerships - Improve efficiencies and reduce duplication. To help achieve these objectives, the project seeks to develop and test a streamlined governance approach to: • Allow clubs sharing geography, culture, and language to organise in ways that suit them. • Eliminate duplication and remove layers of hierarchy to make Rotary more responsive and cost effective • Bring together the best resources from across the region and make them easily accessible to every club. • Improve communication effectiveness to enhance club and member engagement. • Grow membership
